ABOUT ME

Passionate web developer who loves building responsive, user-friendly applications. Curious about new technologies, problem-solving with code, and always eager to grow through challenging projects.

EDUCATION

BACHELOR OF TECHNOLOGY

Prince Of Songkla University
Engineering (Bachelor's Degree)

- Major: Computer Engineering

SKILLS

Frontend: Next.js, React, Tailwind CSS, ShadCN UI, Bootstrap, JavaScript, TypeScript

Backend: Node.js, Express, Prisma ORM, JWT

Database & Auth: Supabase (PostgreSQL & Auth), MongoDB, SQL

Other Tools: Git, Vercel, Render

EXPERIENCE

INTERNSHIP | CPF IT CENTER (AXONS)

2023 – 2024

- Developed a second-hand phone price estimation system and a real-time chat feature for admin and main website communication.
- Designed reusable UI components (modal, card) for mobile phone data

PROJECTS

AI-POWERED NOTE-TAKING APP (NOTO)

2025

- Built a responsive note-taking web application
- Implemented Supabase Auth and PostgreSQL (Prisma ORM) for secure authentication and data management
- Integrated OpenAI API to generate note summaries & insights (feature disabled due to API cost)

BLOG PROJECT

2023

- Developed a blogging platform where users can read articles, while admins can create, update, and delete content
- Added features like search bar and sorting dropdown for better content management
- Designed fully responsive UI for optimal experience across devices

WEB SHOP APPLICATION

2022

- Created a simple e-commerce interface to practice layout design and frontend techniques
- Showcased product listing with a clean UI

REGISTER FORM

2021

- Built a registration form interface as a learning project to strengthen frontend development skills
